The main map area displays a detailed landscape with various management zones and features. Key elements include:

- Topography:** Contour lines indicating elevation across the terrain.
- Road Network:** A network of roads, some marked as proposed (dashed lines) and others as existing (solid lines).
- Management Zones:** Various colored and patterned areas representing different land management priorities, such as Ancient Forest (green), Big-tree Old Growth (blue), and Remnant Old Ecosystems (yellow).
- Water Features:** Streams and lakes, some marked as proposed and others as existing.
- Infrastructure:** Features like towers, landing towers, culverts, bridges, and cattle guards are marked with specific symbols.
- Operational Information:** Areas designated as Wildlife Tree Patches, Non-productive, No Machine Zones, Swamps/Wetlands, and Riparian Reserves.
- Priority Deferral Categories:** Specific areas like Big Tree Old Growth, Ancient Forest, and Remnant Ecosystems are highlighted.
- Woodlot and Other Features:** Woodlots, Indian Reserves, lakes, range tenure boundaries, invasive plants, recreation boundaries, protected areas, community forests, falling corners, stations, and other features are also marked.

A scale bar at the bottom right indicates distances in meters, ranging from 0 to 1,400. A north arrow is also present, pointing towards the top of the map.
